Post-Interview Program Visits: A Solution to the Limitations of Virtual Interviews?

<u>Steps for Program Participation</u>

1. Review and sign Participation Agreement and return to Nancy Nelson at
   Nancy.nelson@hsc.utah.edu
2. Provide names and email addresses for students who interview at your program. Please send this to the research coordinator, Nancy Nelson. This should be completed at the close of each virtual interview day or at some other specified time to ensure only students who complete the interview process are included in the study. Programs will inform invitees that the program is participating in this APDVS trial.
   a. Students will be de-identified in the encrypted study database and will not be linked to specific programs at which they interview. The information provided will only be utilized to define the study population (students who interview at participating programs) and distribute the survey. The information provided will only be accessible to the research coordinator, Nancy Nelson.
3. During virtual interviews, share scripted language with applicants informing them of program participation in the study.
4. Complete and submit rank list to the NRMP before February 7, 2023. Candidates can start visits Feb 8.
   a. Have your Program Coordinator obtain a screen shot of the view showing the "last edited" date for NRMP login / revisions and send this to the research coordinator
5. Proceed with hosting / enabling student visits.
6. Complete the post-process survey, which will be distributed to Program Directors on March 1st, 2023 (and will close on March 12th, 2023).
